

Annual Key Assessment Findings and Curricular Improvements
Department of Physics
Bachelor of Science/ Bachelor of Arts Program in Physics
AY 2010-11

Key Assessment Findings

During the academic year 2010-2011, two undergraduate students took the senior comprehensive examinations and passed. To preserve confidentiality, these data have not been presented in this report. Aggregated data will be presented later in the five-year report.

Curricular Improvements

No major changes to the undergraduate curriculum are planned at this time.

The Department has implemented rubrics in the undergraduate program for the analysis of comprehensive exam performance for BA and BS candidates in Physics.
